**SYLLABUS: CID-2005-C – FS 18-SP19 - Gray, J.**

## **COURSE DESCRIPTION**

### **AKA: What to Expect**

In this course we will examine the fundamental understandings and principles of the professional field of cartooning from a formal analysis of how the aesthetics of a comic's construction can help to promote its content. We will become familiar with and experience the basics of cartooning as well as allow exploration towards the wealth of options available to you as you pursue this field. There are several things that the student is expected to understand by the end of this course:

- What methods and media can I employ towards creating?
- What is the story I wish to create and how will basic design, composition and functionality come together in my imagery?
- What are practical business aspects will I need to become a professional cartoonist?
- How can I employ and juggle critical thinking and problem-solving skills in both my artwork **and** my business?

All areas of cartooning craft and writing will be covered, from page and panel layout and composition, to inking and drawing skills, to your thoughts and ideas in constructing a narrative and how they relate to the outside cartooning and cultural universes. **The previous semester was one long, continuous assignment designed to get you used to the basics and become comfortable with comics, yourself, your work ethic and the development and genesis of your personal style. This semester has more intense and smaller assignments designed to yank you out of your comfort zones and force you to focus on specific facets of comics that will help you, the individual student, improve. The coursework in this session is more intense but is designed to nurture creativity alongside discipline. Any coddling and handholding is done. I can't make you want to learn if you don't wish to improve. You have to want it. You have to need it.**

Please understand that this is a **group critique studio class** and each student will discuss his or her work at the pencil stage. The goal will be to **work and constructively discuss** each person's individual contributions to the class as a group. Following this, the student will complete finished inks of that page, bringing in copies of the completed work along with the next penciled page each week. In our critiques, we will discuss formal concerns about your drawings, along with how each composition helps to amplify the ideas herein. Strategies to create synesthetic experiences for the viewer will be stressed as we look at how the student chooses to capture time, space, and emotion on each page.

Students are encouraged to express themselves through their comic artwork and for them to be critical about the way in which they utilize various ideas and techniques in their work. **This is a workshop, and the emphasis is on the growth of the person as an artist rather than the significance of any one piece!** Different, iconoclastic approaches are encouraged and rewarded in the solution to each problem.

By the end of this course you will have experienced a variety of media to communicate ideas graphically towards the start of building your **professional portfolio**.

### **Concerning Disabilities + Accommodations**

**I won't know how to teach you better if I don't know that there is an issue!** If you have a disability or health concern that may have some impact on your work in this class and for which you may require adjustments or accommodations, please contact **Disability Services** or visit: <http://www.sva.edu/students/disability-resources>

In order to receive academic accommodations due to a disability, a student must first register with the Office of Disability Services (ODS). Students approved for accommodations will be given an *ODS Accommodation Letter* to submit to their instructors. If a student does not provide an *ODS Accommodation Letter* to their instructor, they will not be eligible to receive accommodations in that course. All instructors are required to adhere to SVA's policies regarding accommodations for students with disabilities. Students who have a need for academic accommodations, or suspect they may have a disability, should contact the ODS via telephone: **212-592-2396**, or visit the office: 340 East 24th Street, 1st Floor, New York, NY 10010, or email: [disabilityresources@sva.edu](mailto:disabilityresources@sva.edu)

### COURSE DESCRIPTION

AKA: What I Expect From You

**Class begins promptly at 3:20 PM. Our goal is to wrap up at 6 and leave by 6:10.**

If, for whatever reason, you are unable to make it to class on time on a regular basis or if you are expecting to be unable to attend or do your work for any extended period of time (i.e. you will be out of town for longer than a week) I ask that you **seriously** consider not taking this course. Our time is limited, we have a lot to cover and the goal is not to waste it. If you are consistently late or miss several classes, it will be **extremely** difficult for you to understand what we are doing or to make up the work.

And let's get this out of the way: **NEW WORK WILL BE DUE ON THE DAY OF YOUR CRITIQUE, EXCEPT FOR HEALTH REASONS WITH A WRITTEN DOCTOR'S EXCUSE WITH A VALID DOCTOR'S PHONE NUMBER.** (I will call it to check and if I catch you in a lie I will fail your assignment immediately) **NO EXCEPTIONS.** YOU WILL NOT BE ABLE TO RECEIVE ANY CREDIT OF ANY KIND FOR LATE WORK, NOR WILL YOUR WORK BE DISCUSSED IF YOU MISS YOUR CRITIQUE. IT IS A WASTE OF TIME AND INSULTING FOR YOUR CLASSMATES TO DO SO. **FOR EACH MISSED ASSIGNMENT, YOUR GRADE WILL BE DROPPED ONE LETTER GRADE DOWN (FROM "A" TO "B" AND SO ON).** **MISSING MORE THAN THREE ASSIGNMENTS WILL RESULT IN AUTOMATIC FAILURE.**

In the professional world extensions are rare and do not come without consequence. It is **your** responsibility to present your finished assignment **on time and at the start of class.** If you have an extenuating circumstance that precludes you from timely submission or if you encounter issues that will keep you from successfully completing the class, please see the instructor and we will discuss it. If I deem your excuse unwarranted the only thing that will change my mind is a letter from the dean. **Incompletes are given only in extreme situations and only if the student is already passing with a B average.** Students may drop this class without penalty within the allotted 3 weeks. It is the student's responsibility to withdraw from class before the schools drop/add deadline. Students who don't attend both the **midterm** and **final critique** **will** receive a failing grade.

### Concerning Grades

Your grade is not only about the quality of the work, but about **how you bring it in.** You **must** bring in your work in the manner prescribed by myself and in this syllabus. You **must** listen to the assignments and follow the process dictated to you. In order for this class to work you **must** be respectful and open to the methods being taught to you. **I require you to follow procedure so that you can learn.** If you bring in work that is not what I have asked for it will count as a missed assignment!

**There is no extra credit work available in this class.** You will be evaluated on the basis and understanding of the assigned projects. Midterm evaluations are given as a gauge for your final grades and an indicator of problems.

**Incompletes will not be given unless the circumstances are dire.** Trying to work through SVA's system gives the student an automatic F after set dates and does not allow the teacher to change the grade in system resulting in a cumbersome amount of back and forth with the registrar. I try to avoid this and you can avoid this by doing the work on time. I am not objecting to giving incompletes to students if they need so, but it's an risk and a hassle that winds up potentially messing the student up on timely issues and it's something all parties should strive to avoid.

### Criteria and Breakdown for Grading

Grading will be judged on the completion of all assignments and on the basis of each individual's growth, dedication, and investigation in their own work—**not** on how each individual compares with each other. You are only competing with yourself in this class and a good grade will depend on your hard work and willingness to "push the envelope" with your capabilities to mature as an artist and as an individual. Things that will be considered for your grade are—

- Application of the ideas discussed in class

## SYLLABUS

- Aesthetics: Quality of illustration aspects being covered
  - Conceptual clarity, innovation, strength and originality
  - Craft and presentation
  - Punctuality, meeting of deadlines and class participation in discussion and critique
- 
- **100-90% (A) - Excellent!** Competent with exceptional technical merit and understanding.
    - Student shows initiative and evidence of experimentation and research. Concepts are executed well and implemented creatively. All work is completed and turned in.
  - **89-80% (B) - Above Average!** Competent aesthetically and technically.
    - Student understands the principles or elements and implements them well. All work is completed and turned in.
  - **79-70% (C) - Average!** Fairly competent understanding of the aesthetics and technicality.
    - Student does not initiate or push the development of the assignment to the fullest or give it the personal expression desired with the project. All work is turned in.
  - **69-60% (D) - Marginal.** Poorly executed. Little effort to understand aesthetically and technically.
    - Student work and their understanding of it is messy or incomplete. Some assignments are not completed.
  - **Less than 60% (F) - Poor/Failure.** Little to no understanding or even trying.
    - Student lacks initiative to understand and participate. Assignments incomplete or student failed to attend.

### Course and Critique Participation: Artwork (50%)

*"Raising your hand shows that you're here. Questioning shows that you're analyzing the ideas and people around you. Giving an answer to questions shows that you're listening. Explaining why that's your answer shows that you're thinking." – Unknown*

As an artist you must learn to work with your peers in a constructive environment, many times on team based projects. At the same time you must learn to give and take constructive criticism from your peers as well as those your work is for (in this case, your teacher).

This is a discussion and participation based class and **all students are required to participate**. Being a wallflower, trying to sit in the back of the class unnoticed or keeping your head low to stay unnoticed will be aggressively discouraged. Effective learning—your own and the learning of others—hinges on both the public presentation of your work and by your suggestions, discussion, attendance and timeliness. Active participation in the discussion of all student work is encouraged in order to build an equal understanding of each individual student's work ethic and technique. Don't be afraid to speak up and encourage others to speak up about your own and about others' work! Acceptance of your own work, as well as learning how to accept rejection and constructive criticism of it from your creative peers, are a large part of understanding the creative process.

That said, only **constructive critique** will be allowed-- off-hand remarks, insults, or otherwise damaging or malevolent comments will be considerations for immediate expulsion from the class. **In addition, NO racist, misogynist, homophobic, harmfully sexual in nature or otherwise bigoted remarks and/or work will be allowed in this course.** This is disruptive and rude. I do not believe in censorship, but I do believe in sensitivity regarding others within the context of a learning atmosphere. I reserve the right to refuse a critique of your work should you go this route which will affect your grade.

**Concerning usage of technology in the class:** Laptops/iPads/iPhones are fixtures in life and today's classroom. They can draw us deeper into the discussion, help us expand our research or provide an incredible distraction to the teaching process. Usage of technology to help your learning experience largely depends on you being a student who is thoughtful and respectful to yourself and those around you. Please keep this in mind when engaging with your fellow students and don't abuse the privilege of using these tools towards helping in class participation. If you're using technology to do your research, turn your ringers off and put your phone on vibrate. Answering phone calls in class will be considered disruptive and rude and will not be tolerated.

### Professional Practice: Exercises and Participation (20%)

This semester, in addition to our standard assignments we will be focusing on professional practice. Because of the nature of this course I only have so much time to give so we won't concentrate heavily on this topic but I do want to leave you all at a point where

## SYLLABUS

you can begin the legwork on your own by the end of the semester. You will be responsible for creating a finished business card, resume and cover letter by the end of the year.

### Reference Material (10%)

Having reference material for your artwork is paramount and required. On occasion I will ask for your pages to have some sort of referenced work and you must bring in copies of what you referenced from life (photos, printouts, etc) to prove that you did so at the end of the term.

### Midterm & Final Project (10%/10%)

Midterm and final participation are **MANDATORY**. Lack of participation in either of these events will result in failing grades for your projects. Midterm will be a simple cumulative assessment of the work you've produced in class to date so as not to interrupt your work flow.

That said, your **Final Project** will be the completed jam comic, plus your professional practice assignments, **and all the individual assignments given to you throughout the year (designed to resemble an anthology)**, and any self-maintained sketchbook materials relevant to the individual assignments that you think will help you. Because you have so much work on your plate, I won't require a sketchbook but having sketchbook work relevant to the assignments at hand will certainly help your grade. All final assignments must be placed in our classes Google Drive **WITH YOUR NAME ON THE FRONT PAGE**. We'll discuss as a unit how to make this transition easier for everyone as opposed to using Canvas. Lack of participation in the final project will result in failing grades for the overall class. No excuses unless given by the dean.

## COURSE MATERIALS

### AKA: Items You Will Need

**ART SUPPLY STORES:** Please remember to ask about **student discounts** before making your purchases!

**Blick Art Materials** is located on 23<sup>rd</sup> St. Between 7<sup>th</sup> and 8<sup>th</sup> Ave —right hand side, and 13<sup>th</sup> St. between 5<sup>th</sup> Ave and Broadway. If you're not in the city I highly suggest ordering your tools online from Amazon or going to your local store and placing orders there.

Also, while we will continue to work traditionally, because of the nature of our class and some of the assignments, I will allow your work to be done digitally under certain circumstances.

### Books

**REQUIRED:** (available on Amazon, also at most book and comic stores)

Comics and Sequential Art by Will Eisner

Graphic Storytelling and Visual Narrative by Will Eisner

### Pencils

You really want a light lead pencil that is easy to erase. Get whatever pencils you enjoy working with. **B** pencils are softer; **H** pencils are harder and carve into the paper but give a very precise line. Get a variety, or a set of pencils that are for drawing or sketching. **PLEASE** save yourself headaches and do not use a standard #2. 2B, HB, and 2H are standards—one or two of each is an easy way to start, or consider buying a set. If you know you have a heavier hand and erase a lot, go with a B number. If you feel like you need discipline in lightening your hand stroke, go with a 6H. It will **force** you to not be eraser happy. ☺

Graphite pencils, two each of 2B, HB, 2H.

## SYLLABUS

Also: Please purchase a **mechanical pencil** for lettering and technical work. I would suggest .05 to .07 sized lead depending on your preference. Some people (myself) prefer to draw exclusively with mech pencils. If so, you can buy various leads for those as well.

Lastly: I do not require **non-photo blue pencils** but I do know that for some people (especially newbies), they help. Be warned: **SOME BLUE PENCILS CAN BE WAXY AND HARD TO ERASE**. So if you don't have to use them I wouldn't suggest it.

## Brushes

**REQUIRED:** If possible, try to get a small **WINSOR NEWTON SERIES 7 BRUSH** for inking. I suggest a **0, 1, or 2...** (**2** is MOST POPULAR)

If you can't afford a series 7 (please check around for competitive sales) **Raphael Series 8404** size 2 is also excellent, and you might want to get a variety between 00 and 3 size (000 is smallest and brushes get larger with the numbers.) (\$3-\$6 each.)

Get **ROUND BRUSHES** (as opposed to FLAT)- these will create sharp lines.

**Synthetic brushes** from Winsor Newton and other companies are fine. **Natural hair fibers** are more expensive but will last longer (Winsor Newton Series 7 brushes used to be the standard. Winsor Newton pictured on left, Raphael on right).

## Ink

**REQUIRED:** Black Star Dr. Martin's high carb waterproof black ink is best. **Winsor Newton Black** (in green box with a spider on it is also good. **Higgins Black Magic** is not so good IMHO and I don't really encourage its use. **Rapidograph ink** is good for dipping pen nibs and brushes. **Sumi ink** is good for brushes BUT, since its wax based, it's not good for pens/nibs. If you intend to use any wet media (watercolor/brush pens, etc.) you should make sure to use **WATERPROOF black ink**. Again, the best WATERPROOF ink is **Dr. Martins Hi Carb WATERPROOF black INK** (they also make color dyes, etc., so please make sure it is INK).

OR

WINDSOR & NEWTON BLACK  
INDIAN INK (WATERPROOF)

### Pens (Nibs)

**REQUIRED: JAPANESE G-PENS** are available at DaVinci or online. Do a Google search for 'DELETER NIB' or go to [WWW.COMICTONES.COM](http://WWW.COMICTONES.COM) OR [http://akadotretail.com/shop/shop\\_showsupplies.php?s=Pen%20Nibs](http://akadotretail.com/shop/shop_showsupplies.php?s=Pen%20Nibs)

Get anything with a "G" in the title and any other nibs that appeal to you. You will also need an inexpensive pen holder. Also, if you like an assortment of nibs - get 3 or 4. Brands include **Hunt** and **Gillotts**. The most popular pen is a **Hunt 102** and **Hunt 107** get one each of those. (Known favorites among the community are **Gillotts 1290, 404, 290** and **291**.)

a package of DELETER "Comic"  
G-pen nibs

**DON'T get Speedball lettering (B, C, etc.) pens for drawing.** Experiment with a small one if you like but it is not required.

You'll have to get holders for each of your nibs. THE DELETER PEN SET AT DAVINCI IS PERFECT FOR HAVING BOTH G PEN NIBS AND UNIVERSAL PEN HOLDER!!!

quill and quill holder on left, nib on right

NIB HOLDERS—get 3 SPEEDBALL standard pen holders, and 2 SPEEDBALL crowquill holders, type #102

three SPEEDBALL standard pen holders

two SPEEDBALL crowquill holders TYPE #102

### Paint Pen (Required)

Please purchase a **WHITE MOLOTOW PAINT PEN**. This needs to be a **FREE SIZE, BRUSH PEN**. Do not purchase the marker pens please. It must be brush for the assignment that you will do using it.

### Technical Pens (Not Required)

**Rapidographs** are really great to have if you can spring for them. Be aware that they need to be cleaned properly over time and that there is a process to do so to keep them nice and good to use (I won't be going over this in class because it is time consuming. Tutorials exist online). **KOH-I-NOR** brand is absolutely best. You should at least have a very small one for detail and touch up. One medium one for everyday drawing, and a thick one for panel borders and other needs. If you only buy one, I would get a SIZE 2 Pen—with yellow band...

Price - \$10 each or \$40 for the set of 8 (try Utrecht or online.)

## SYLLABUS

If you can't afford/don't want to bother with Rapidographs, **Faber Castell Pitt Pens** are way cheaper (A set will run you about \$8, individual pens are usually \$3 each), the **only other technical pens** that I will accept in my class and are my personally preferred brand. Get the smaller line weights—.005, .01-.03 widths and a .08 for thick lines. These are good for initial drawings, sketches, touch-ups, etc, and for lettering and panel borders. **Don't come in this class using Microns** because they are garbage pens that yellow and fade out your artwork over time. **I will not allow you to use these for your work under any circumstances.**

**An Important Note About Technical Pens:** You will be learning how to ink using **brushes and nibs** and your comic pages **will be REQUIRED** to be inked using these tools. Tech pens can be great as a fallback but **YOU NEED TO LEARN HOW TO USE BRUSHES AND NIBS AND GET ACCUSTOMED TO THE LINES THAT THEY GIVE YOU.**

### Paper

**REQUIRED SIZE:** No less than 11 x 14. No more than 11 x 17

2-ply vellum, or regular finish Bristol board – **Canson** is best, or store brand. **Strathmore is EVIL.** Don't do this to yourself. Save your life. Alternately: **HOTPRESSED (SMOOTH SURFACE!!! IMPORTANT!!!)** Watercolor Paper

1 pad of CANSON VELLUM FIN-

### Assorted Tools

**REQUIRED:** Clear plastic C-Thru brand ruler, with inch rules on both sides of a clear plastic ruler with red grid lines). If you have a drawing table, you should also have a t-square and triangle. Also, please purchase a cheap set of index cards.

T-square, 24". Wood or plastic is easier to lug around than metal.

White artists' tape, 3/4"

Triangle, for drawing right angles

### Corrections: Deleter (Ink) and Erasers (Pencil)

**REQUIRED: Deleter** is Japanese brand white out (available at Da Vinci NY Central). **Pentel Correction Pens** are great for quick fixes on brush/nib work. The **"Gel/Jelly" White pens** are *excellent* for white on black lines and lettering, but not so much for corrections. **ClicEraser Pens** are **IMPERATIVE**. They will erase without leaving smudges. Alternately, having a **Kneader Eraser** is great. I don't particularly like White Vinyl Erasers but I know some people who swear by them. **Pentel ClicEraser Pens** however are wonderful. They don't smudge or leave residue, but they do have a lot of eraser dust to them.

Topic: Jack Kirby (Marvel)

Critique of 1<sup>st</sup> Assignment: 22 Mad Libs That Always Work

In-Class Work

- **2<sup>nd</sup> Assignment (Group): "The Uncanny X-Mess: Pt.2—The Marvelous Middle!" (T)**
  - Each person in the group is to pencil one page from their **X-Men** script. You must use an example of one, two, and three point perspective somewhere on your page. Make sure your pencils are clean enough to be read by your fellow students. Do not draw in any letters or sound effects but make sure to leave room for them. That's for the next assignment...
- **Professional Practice Assignment**
  - Create three rough ideas for your professional business card. Run them by me between now and the next Professional Practice juncture in the syllabus

### Week 3 (1/27): Lettering & Inking (Group Project 1)

Topic: Gaspar Saladino

Critique of Pencils

Work in Class

- **3<sup>rd</sup> Assignment: "The Uncanny X-Mess: Pt.3—The Everloving End!" (T/D)**
  - Switch pages!!! Each person in the group will take another person's page letter and ink that page. **Don't mess up your fellow students work!** Use the **Gaspar Saladino** and **Jessica Abel handouts** to help you with your lettering practice.

### Week 4 (2/3): Show, Don't Tell!

Topic: Will Eisner/George Herriman

Critique of Group Project 1: X-Men Project.

- **4<sup>th</sup> Assignment: "How to Make Something from Nothing!" (D)**
  - Using what you were given in class, you will draw a complete 2 page story, penciled and inked. Your story must contain **no words whatsoever with one exception**: incorporate the title lettering of your story into your art ala **Will Eisner** or **George Herriman**. Examples will be shown in class.
- **Professional Practice Assignment**
  - Create your business card mockup using the examples shown. Show me your examples between now and the next Pro Practice point.

### Week 5 (2/10): A Complete Contrast?

Critique of Something from Nothing

Work in Class

- **5<sup>th</sup> Assignment: "Darkness that Lights Up the Night" (D)**
  - Using what you were given in class, draw a 2 page story, penciled and inked. Your ultimate goal here is using proper lighting and shadow/heavy contrast to tell a detective noir story. Layout your pages so that all your panels will be mostly black. Use your paint pen to ink white on black. Your goal is to tell a story using **heavy shadows** to emphasize and understand light sources.
- **BRING YOUR INDEX CARDS FOR THE NEXT CLASS!!!**

Critique of Animation Boards

Work in Class

- **8<sup>th</sup> Assignment: "And Now for Something Completely Different!" (T/D)**

You're going to create a miniature style guide. This style guide must include:

- **Two characters**
- **Turnarounds of each character + a height chart**
- **A simple expressions sheet**
- **A short and concise but clear writeup/description of the world that character lives in (What's their conflict? Their personality? Why do they do what they do? What is the story being told?)**
- **Color Guides to those characters**
- **A floor plan or layout of the setting their world takes place in.**

Make a copy of all your pages and place it in a nice presentation folder on your part of the google drive because...

## SYLLABUS

- **9<sup>th</sup> Assignment: "And Now for Something Completely Not Yours..." (T/D)**

...YOU WILL BE HANDING YOUR STYLE GUIDE TO YOUR CHOSEN PARTNER. Now, you must draw a comic using the style guide given to you. Your comic can be anything.... **YOUR PARTNER WANTS—and it must adhere to what was established in the previously created style guide!** Your partner has to approve every aspect of your story from pencils to inks to letters to the story itself. You both must work together as licensor and licensee to produce an autonomous 2 page, penciled and inked comic based on the other person's guide.

- **Professional Practice Assignment**

- Think about your cover letter. Pretend I'm someone who will be hiring you. We'll go over this more in class.

### Week 10 (3/24): Three Page Perspectives

Topic: Perspective & Narrative

Critique of Style Guide Project

- **10<sup>th</sup> Assignment: "A Different Perspective on Illustrating Comics" (T)**

You must construct a pencil & ink comic narrative (the topic can be anything you want) that consists of **three pages with no more than two splash panels** in the story. Here are your rules:

- **The first page will consistently show one point perspective in a nature setting.**
- **The second page will consistently show two point perspective in a room.**
- **The third page will consistently show three point perspective in a city.**
- **There must be 2 characters on every page doing something that is not them standing idly.**
- **The two characters must be talking to each other: use word balloons to help accentuate your story's text**

**These pages can be arranged in any order you like to help tell your story** but they must create a full narrative with a beginning, middle, and end. Don't just make a walls of text. Let the illustrations tell the story. Now you're telling a comic story with larger illustrations. Let's see how you manage that space.

### Week 11 (3/31): Poetry in Motion

Critique of Perspective & Narrative Comic

Work in Class

- **11<sup>th</sup> Assignment: "Poets' Souls and Painters' Pens" (T/D)**

Here is a serious assignment. Find a poem that resonates with you. Something personal, something meaningful. Nothing silly – no limericks, goofy stuff, or haiku's (primarily due to their length unless you can prove to me you can make a substantial 2-3 page comic out of it). Your goal is to take the words of that poem and use them to illustrate a comic. **Here's the trick:** The poem will be presented to the reader in captions... but the narrative itself must be something original that correlates with the topic that the poem you chose is expressing. We'll go into greater detail on this assignment during class.

- **Professional Practice Assignment**

- Create your cover letter. Prepare to bring in your business card mockup, resume and cover letter to the next class.

Work in Class

- **12<sup>th</sup> Assignment: "The Personal Anthology Portfolio" (T/D)**

You've done 11 assignments up until now, but few of them have been from your perspective, so here are your final assignments: Let's see how they all look together! I want you to see your progress by creating your own anthology.

## SYLLABUS

---

Take all of the previous assignments you've created in class for this semester (along with last semesters) and present them in "Notebook/PDF form" the same way you did your 16-page comic first semester. Your goal will be to create a cover and a 3 page narrative about your experiences learned in this class. You may use any medium you wish. In the front will be your resume and business card, followed by your cover letter. The narrative should be in the form of a diary comic. The first two pages will talk about you and the work on the following pages and the last two pages will be your conclusion about yourself. Good luck

- **13<sup>th</sup> Assignment:** It's a secret to everybody.

### Week 12 (4/14):

**Final Student Project (Personal Anthology Portfolio)**

**Final Group Project (The Jam Comic: Part 2)**

Work in Class

- **12<sup>th</sup>-13<sup>th</sup> Assignment:** It's a secret to everybody. Work on final projects
- **Professional Practice:** Use this class time to finalize your professional practice tools – card, resume and cover letter. Create your finalized versions of all three items. Zoom time will be used to work and chat.

### Week 13 (4/21):

**Final Student Project (Personal Anthology Portfolio)**

**Final Group Project (The Jam Comic: Part 3)**

Work in Class

- **12<sup>th</sup>-13<sup>th</sup> Assignment:** It's a secret to everybody. Work on final projects
- **Professional Practice:** Use this class time to finalize your professional practice tools – card, resume and cover letter. Create your finalized versions of all three items. Zoom time will be used to work and chat.

### Week 14 (4/28):

**THE END!**
